

The role of the Australian Country Hospital Heritage Association Inc. is to collect, preserve, maintain and display objects, equipment, memorabilia, oral histories and photographs pertaining to the history of health care in country hospitals, especially in Central Queensland, since 1858. The collection has been under development for over 30 years and a number of items have been on display at the Lakes Creek Cottage at the Rockhampton Heritage Village for the past 10 years. The Association has now established its collection in the new Country Hospital Museum which was officially opened on 21 November 2009. The building is the former Mt Morgan Hospital Nurses' Quarters which has been relocated to the Heritage Village and fully refurbished. We invite you to join our Association to assist us to further enhance our Museum and the displays within it.
